

idGroup Opens Dallas Office

Integrated Design Group, Inc. (*idGroup*) is proud to announce the opening of a new office in the Dallas, Texas area. *idGroup's* new location at 5215 North O'Conner Boulevard in Irving, TX was established to meet the needs of the firm's rapidly growing data center design practice. This office will provide integrated architecture and MEP engineering services, as well as interior design and project management for its clients.

Over the past 18 months, *idGroup* has been awarded multiple data center projects in the region, including contracts with Thomson Reuters, Digital Realty Trust, the University of California at Santa Barbara, and the Church of Jesus Christ of Latter Day Saints.

A leader in the field of data center design, *idGroup* has designed over 1,000,000 SF of computer room space for all Tier levels, serving clients in finance, technology, institutional, government, and health care industries since its incorporation in 2003.

idGroup is a full-service, integrated architecture and engineering firm headquartered in Boston, Massachusetts, specializing in the design of data centers and other mission critical facilities throughout North America and in the Middle East. The firm has been named as one of the fastest growing private companies in America by Inc. 5,000 for each of the past two years. For more information on *idGroup*, please visit www.idgroupae.com.
