

Dennis Julian Named Accredited Tier Designer

In keeping with the philosophy established by Integrated Design Group, Inc. (*idGroup*) to have practitioners at the vanguard of current data center design trends, Principal Dennis Julian, PE, has earned the title of an Accredited Tier Designer (ATD) by the Uptime Institute.

The ATD program is a comprehensive training course for design professionals, to enhance their understanding of the practical application of Tiers, as established by the Uptime Institute.

Dennis, who has been with *idGroup* for the last four years, has over 25 years of experience and has managed and engineered a wide variety of data center and mission critical projects. He has served as the Principal-in-Charge for data center projects for Switch & Data and Digital Realty Trust.

idGroup is a full-service, integrated architecture and engineering firm, specializing in the design of data centers and mission critical facilities throughout North America and in the Middle East. The firm has been listed as one of the fastest-growing private companies in America by Inc. 5,000 the last two years. For more information on *idGroup*, please visit www.idgroupae.com.
