

## idGrouper to Run in the Boston Marathon

Integrated Design Group, Inc. (*idGroup*) is proud to announce that Administrative Assistant Marissa Jazmin will be participating in the 2010 Boston Marathon as a member of Team Brigham.

Team Brigham raises money for essential Brigham and Women's Hospital community health programs to improve the quality of life for those less fortunate. These programs provide jobs for young people interested in health care, offer programs for domestic violence victims, make available compassionate services for women with breast cancer and support community health centers - all addressing the serious needs of our community and beyond.

For Marissa, a former lacrosse player at Arizona State University who moved to Boston only two years ago, training for the marathon has provided her with an opportunity to acquaint herself with her surroundings. "Running is the best way to sight-see in Boston," Marissa says, "Being relatively new to the city I've been able to explore and get to know the neighborhoods."

In supporting Marissa's cause, *idGroup* has pledged to match any donations made by fellow *idGroup* staff members. Anyone interested in supporting Marissa and Brigham and Women's Hospital can do so by visiting [www.firstgiving.com/marissajazmin](http://www.firstgiving.com/marissajazmin).
